

MTBO5DAYS JERSEY

This year we have prepared something new for you, something we have not had here before. In cooperation with BIORACER, we have created cycling jerseys with original design MTBO5days.

Who or What is BIORACER?

Bioracer is a renowned Belgian company that specializes in the production of high-quality cycling clothing and accessories, both for professionals and amateur cyclists.

Bioracer combines innovative technology and comfort to provide superior performance and aerodynamics for cyclists of all levels. Bioracer also dresses teams from the world peloton, their biggest collaborations being with teams INEOS, UNOX or the Belgian cycling team.

What kind of jersey is that?

This is the Icon series, which is all about comfort and performance. The classic body cut provides an extremely relaxed feel, ideal for cyclists and people who enjoy a smooth ride.

The ICON jersey has a comfortable body cut, ideal for riding in mild and warm conditions. The elasticated waistband with silicone gripper ensures that the jersey stays in place even during intense riding.

On the back you will find three spacious and easily accessible open pockets, allowing you to conveniently store all the necessary items.

How can I order my jersey?

There are five sizes to choose from. Choose your size from the size chart. The price for one jersey is 1800 CZK (75 EUR). **The jersey can be ordered in ORIS through the additional services, only until 15.5.2025 until 23:59**, so that the jerseys can be produced in time. Only a limited number will be available on site.

Is there anything else I should know?

You'll also be able to purchase new socks at the center of race made from Climawell fabric to prevent overheating feet and excessive sweating while preventing the spread of odors. Maximum comfort for long and short rides. Men's, women's and children's sizes in MTBO5days colours.

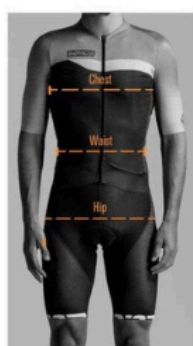

And for the true connoisseurs, a versatile, quick-drying cycling cap made from a fast-drying material that wicks away sweat quickly to keep your eyes sweat-free. It fits comfortably under a helmet without compromising safety.

A preview of the jersey and size chart can be found at the end of this document. Sizes are in the EU

ICON (MEN)

	Chest (cm)	Waist (cm)	Hip (cm)
2/S	90-95	78-83	90-95
